Funding

The 27th Annual Data Report (ADR) of the United States Renal Data System (USRDS) was produced by the USRDS Coordinating Center at the University of Michigan Kidney Epidemiology and Cost Center (UM-KECC) in partnership with Arbor Research Collaborative for Health. Funding for the USRDS is provided by the National Institute of Diabetes and Digestive and Kidney Diseases, National Institutes of Health, U.S. Department of Health and Human Services, under contract HHSN276201400001C with the University of Michigan. The Centers for Medicare & Medicaid Services partners with NIDDK in supporting the USRDS.

In addition to the USRDS Coordinating Center, the NIDDK has independently funded two USRDS special study centers, one at the University of California, Irvine, in collaboration with the University of Tennessee Health Science Center and Kaiser Permanente Southern California, and the other special study center at the University of Washington, Seattle, in collaboration with Stanford University.
